PRICING IDEA FOR ONE-OFF HIRES

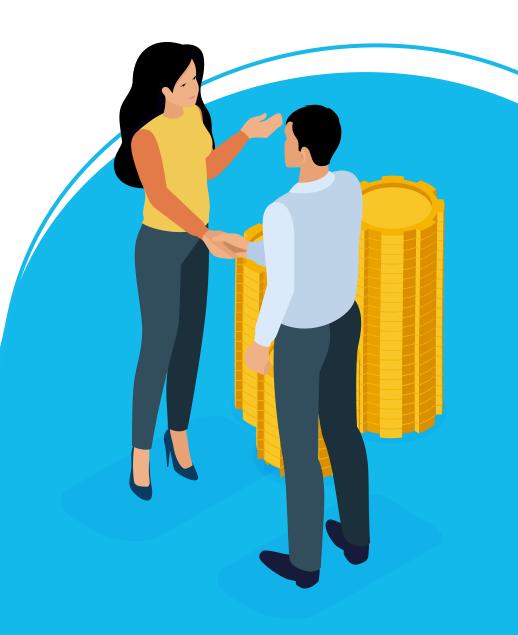

We're not pricing experts. We're marketing experts.

We can position you as a leader in your niche, and we're here to bring ideas.

(Basically, if you sell a retainer and it doesn't work - that's on you)

Everything you see below is just an example. Made up by us just to show you how to get more retained work.

You should work with a pricing expert to truly understand how to sell a retained service.
